New York City.

The City of New York is the exact reflection of the World. The World is a place of contrasts, so is New York. As the World consists of the countries which differ from each other in all aspects of life, so does New York.

A short trip from Manhattan to Brooklyn would fully support this idea. In global terms, this trip can be considered as a trip from an economically developed part of Western Europe to Russia. If you ever wanted to go to China and didn't want to spend a fortune if you're living in New York, all you have to do is to take a train to Chinatown. Isn't it fascinating? Do you want to meet the Spanish people? If I was you, I would forget about a Possible-Be-Dangerous-Plane-Trip to Spain. You don't have to fly out of New York to meet a Spanish person. You've always dreamed about Japanese food? Yes, my friend it's all here. Have you ever thought about such scary things as a war? Well, you don't have to go to Iraq to see it, just stay in East Brooklyn for a night!

You name what or who you want to see and what you think can't be seen in the USA, and I will answer: "Just come over to New York, my friend!"
